Please write a paragraph of approximately 100 words describing your visit to the Writing Studio. You might answer some or all of the following questions: Which assignment did you take to the Writing Studio, and what did you work on? At what stage in the writing process did you visit (brainstorming, planning, drafting, revising, discussing instructor feedback, final polishing)? Which of the suggestions you received were most helpful? Were there any suggestions you did not understand or decided to ignore (and why)? What will you do to improve your paper now that you have visited the Writing Studio?
